

**IMAGEMAKER POST EVENTS PRODUCES EIGHT-CITY INTERNATIONAL  
LAUNCH TOUR FOR OCEANIA CRUISES' NEW *MARINA***

February 7, 2010 – San Francisco, CA - Imagemaker Post Events has produced and launched a dramatic eight-city multi-media tour for Oceania Cruises which showcases their new state-of-the-art luxury cruise ship to the travel community.

These high-powered, multi-screen light and sound events provide U.S. travel agents in San Francisco, Beverly Hills, New York City, Chicago, Toronto and Fort Lauderdale with a riveting first-hand look at the much-anticipated luxury cruise ship "*Marina*" through high-definition video and imagery, including realistic CGI renditions of the ship's restaurants, public spaces, staterooms and incredible suites. The production travels to London, England in late February, 2010.

This is the culmination of a year-long effort between the ImageMaker Post Events creative team and Oceania Cruises executives.

"As *Marina* will offer such a unique and distinctly different travel experience, we wanted a fresh, dramatic approach to showcasing her, in lieu of the cookie-cutter sameness that is so pervasive in our industry. Sondra and her team have created a truly awe-inspiring event that perfectly conveys *Marina's* beauty, elegance and stature," stated James Rodriguez, Senior Vice President of Marketing for Oceania Cruises

"I feel as though I've been on *Marina* many times already, thanks to detailed artist's renderings and CGI images," says Sondra Brunone, executive producer and president of ImageMaker Post. "Our greatest challenge was to visualize the *essence* of *Marina* in the form of videos and imagery, more than a year before she is completed. *Marina* is unique in style, amenities, and design with an array of dining venues and suites unheard of on other ships. We wanted to tell her story in a way that really stood out."

According to Bob Binder, President of Oceania Cruises, the result has been an event that has met with enthusiasm and accolades from audiences. "We selected ImageMaker Post Events to bring *Marina* to life because Sondra and her team are known for creating memorable presentations, sales and marketing videos, Websites and live events for the luxury cruise market. Sondra's team truly understands the Oceania Cruises experience and the expectations of our travel agent partners and guests."

*Marina's* premiere tour is scheduled to conclude in late March in Chicago. The cruise line will launch two new ships, including *Marina*, within the next three years.
